OBJECTIVE

The candidate closes phase 2 with the technical subjects as teachable material, and with a recorded readiness result for the flight instructor airplane knowledge test.

Like lesson 7, this is a consolidation lesson and not a cram session. If the candidate needs to be taught Area II content here, phase 2 did not work, and the honest response is to say so.

LESSON STEPS: THE ELEMENTS, IN TEACHING ORDER

Check each element as it is taught. Leave anything not done blank. Sign once at the bottom.

1. Areas II and III in one pass, as connected material
FAA-S-ACS-25
2. The flight instructor airplane knowledge test: scope, placement, validity
policy/KNOWLEDGE-TESTS.md 61.183(f), 61.39(a)(1)(i)
3. The readiness check
Below
4. A third regulation-or-policy sort, drawn from phase 2 subjects
US-3.4
5. Candidate teaches an Area II or III task assigned at the start of the lesson
US-4.1
6. What phase 3 is, and what changes: narration, the four-part cycle, recorded lessons
program/PROGRAM-STRUCTURE.md
7. Coverage review: what the matrix says the candidate has covered so far
program/COVERAGE-MATRIX.md

COMPLETION STANDARDS

1. The candidate teaches an Area II or III task assigned at the start of the lesson, without preparation time, to standards/CRITIQUE-STANDARD.md.
2. The candidate connects two technical subjects, explaining how one changes how they would teach the other.
3. The candidate sorts the third regulation-or-policy list correctly, or looks up what they do not know.
4. The candidate completes the readiness check, with the result recorded, named, and dated.
5. The candidate states when their knowledge test result would expire relative to a planned practical test date.
6. The candidate delivers a self-critique before hearing the instructor's.

Standard 4 is completed, not passed. "Not ready" satisfies it.

DEBRIEF AND SIGN-OFF

Critique: the error, its probable cause, and the correction. Candidate self-critique first.
